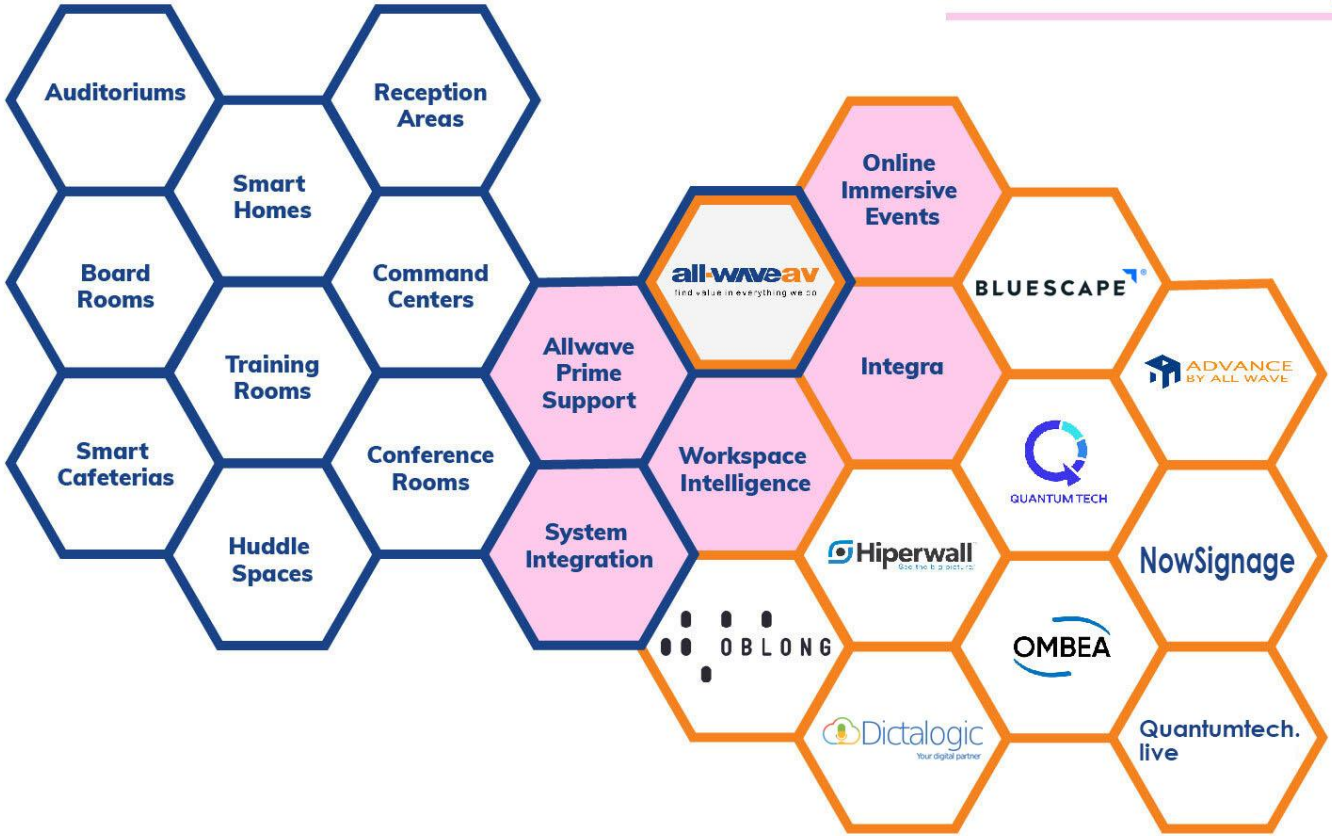
# Types of Spaces

- Huddle Space
- Meeting Rooms
- Conference Rooms
- Boardroom
- Zoom / Team Rooms
- Training Rooms
- Auditoriums
- Reception Areas
- Command Centers
- Digital Signage
- Collaboration Spaces
- Smart Homes
- Smart Cafeterias
- Innovative Solutions
- Experience Spaces

# Allwave Honeycomb



# PSNI Global Alliance

All Wave AV is proud to be a part of PSNI Global Alliance, the most recognized network of technology providers for communication and collaboration.

- PSNI Global Standards
- Seamless Global Projects Delivery
- Standardized help desk and Support

# AVIXA STANDARDS

AVIXA is the Audiovisual and Integrated Experience. Association is an international trade association representing the audiovisual industry.

- **Audiovisual Systems Performance Verification**

This standard provides a framework and supporting processes for determining elements of an AV system.

- **Cable Labeling for Audiovisual Systems**

This standard defines requirements for audiovisual system cable labeling for variety of venues.

- **Standards Guide for Audiovisual Systems Design**

This standard outlines a consistent set of the standard tasks, responsibilities and deliverables.

- **Projected Image System Contrast Ratio**

This standard addresses the image contrast ratio of display systems used in presentation environments.

- **Audio Coverage Uniformity**

This standard defines parameters for characterizing a sound system's coverage of defined listener areas.

- **Audio, Video and Architectural Drawing Symbol**

This standard defines a standardized set of architectural floor plan and reflected ceiling plan symbols for aidoo, video and control systems.

- **Lighting Performance for VC Rooms**

This standard provides lighting parameters and performance criteria for small to medium sized spaces for Video Conferencing.

- **Display Image Size for 2D content**

This standard determines display image size and relative viewing positions for Basic and Analytical Decision Making.

- **Sound System Spectral Balance**

This standard defines a measurement and validation process that ensures sound systems reproduce a relatively uniform spectral balance.

- **Audiovisual Systems Energy Management**

This standard addresses the control, monitoring and use of electric power of AV Systems.

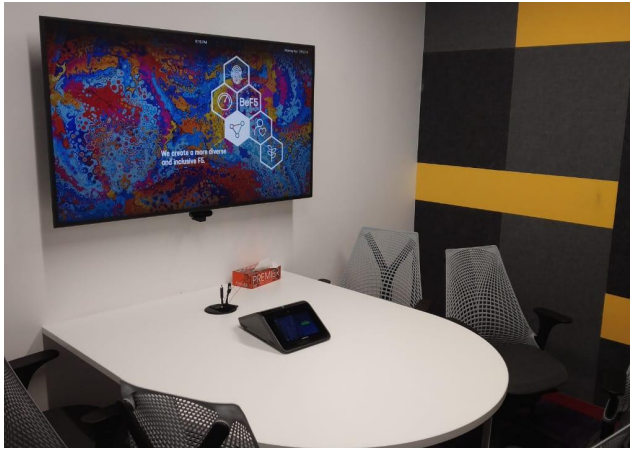
# HUDDLE SPACES

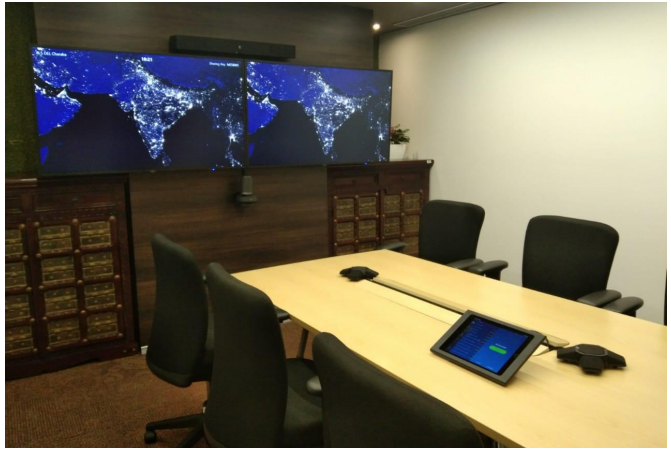
The way people work is changing. With the growing trend of open workspaces and the rising costs of real estate, fewer individual offices exist. Thus, a growing number of huddle rooms has emerged.

Huddle spaces are perfect for unplanned and planned sessions, meetings, that allow teams to hold discussions and be more productive.

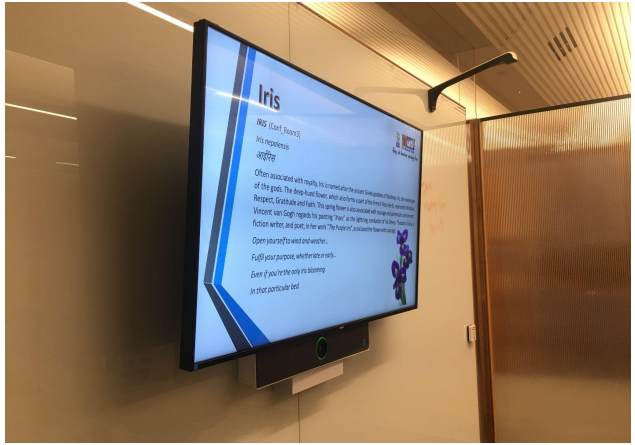
Morning Star



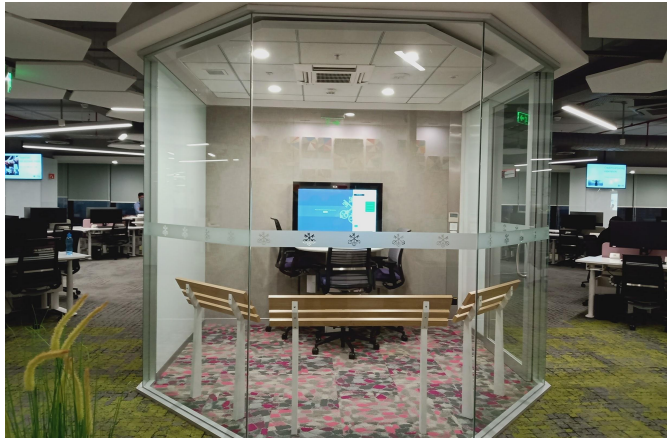
F5 Networks



Elsevier



UTI Mutual Fund



UBS

## Benefits of Huddle Spaces

- Helps save space
- Scalable and Dynamic
- Easy to schedule Meetings.
- Simplifies Communication between teams
- Results in higher productivity
- Ideal for Remote Teams to communicate and collaborate

# BOARDROOMS

Boardrooms are perfect for interacting with each other easily, they are best suited for improving productivity, make strategic decisions and connect with each other remotely.

A perfect place for collaboration is important for any small to medium sized business. Perfectly designed boardroom plays an important role in bringing productivity, improved interactions and provide flexibility to connect remotely.

Fiserv

JDA

UTI Mutual Funds

TATA AIG

## Benefits of Boardrooms

- Smarter decision making
- Collaboration at free level
- Correct Articulation of ideas
- Sharing of Confidential information and communication

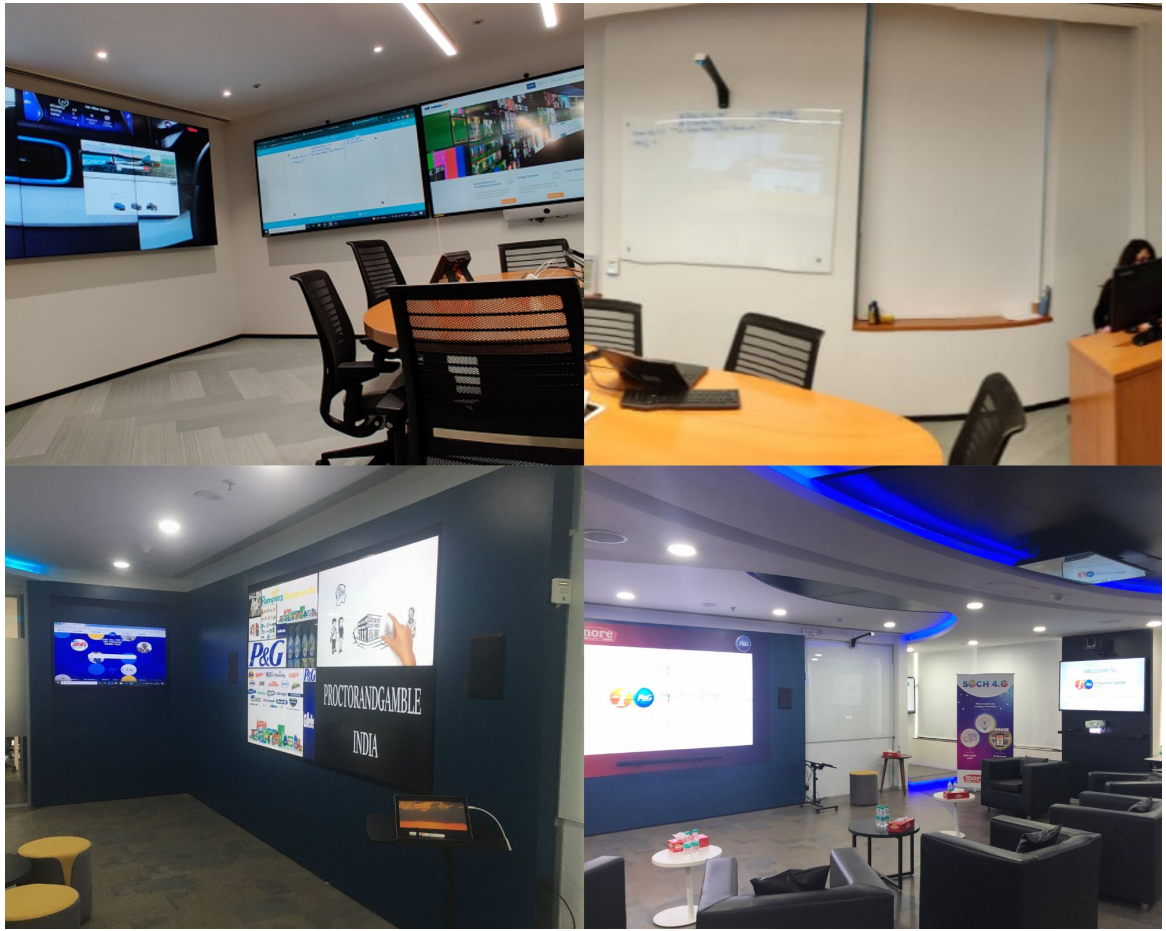
# COMMAND CENTERS & WAR ROOMS

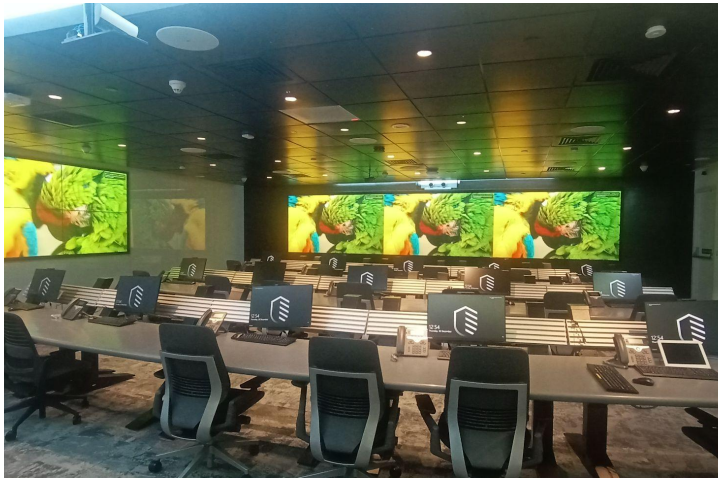
Audio visual technology plays an important role in the control and monitoring of Network Operation Centres (Command Centers) where identifying and resolving problems quickly is critical.

It empowers team for problem identification, decision making and speedy resolution.



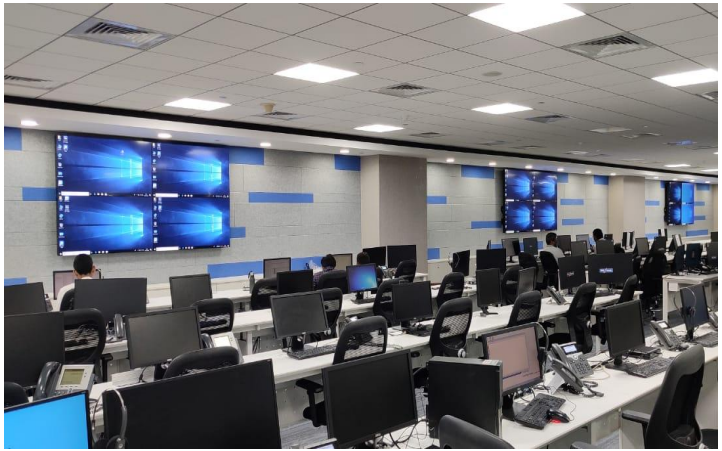
Tata Motors ( Top Row)
P&G (Bottom Row)

Paypal



IBM

UBS TOC



Yes Bank Airoli

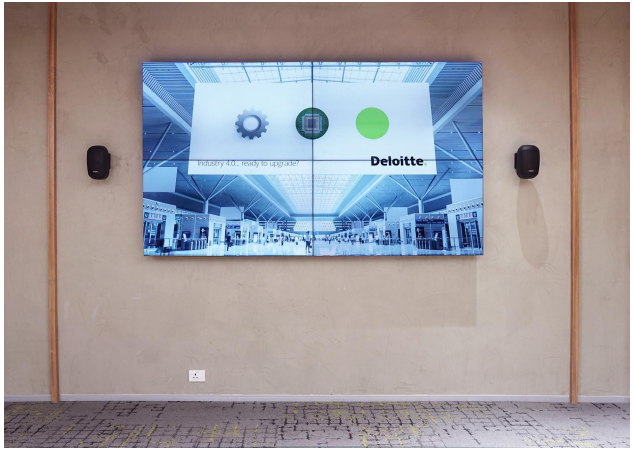
## Benefits of Command Centers

- Improved response time.
- Automation of mission critical response and infrastructure.
- 100% uptime possible with software driven AV
- Seamless communication with multiple command centers and central HO

# DIGITAL SIGNAGE FOR RECEPTIONS

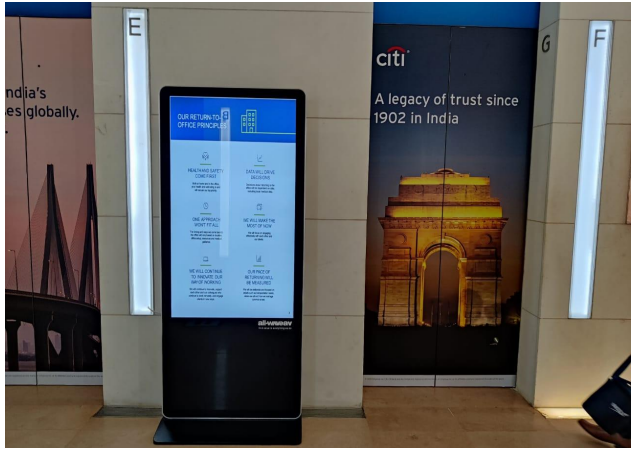
Reception Area is an open space which can create first impression to your visitors. It is an area that allows us to make optimum use of space with efficient AV technologies to create first impression.

Motilal Oswal

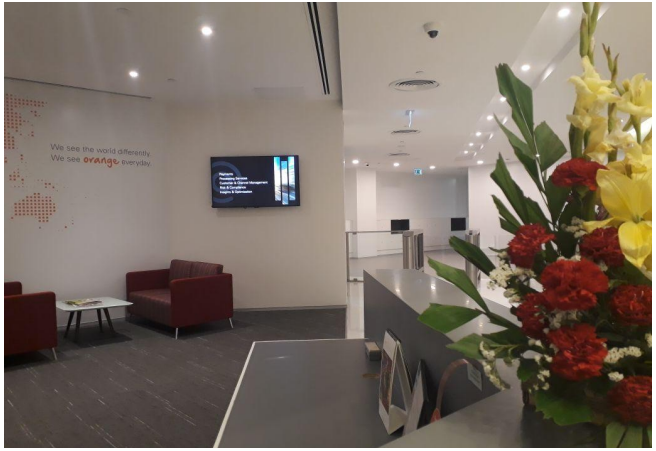


Deloitte

Yes Bank



Citi Bank



Fiserv

## Benefits of Reception Areas

- Creates first impression
- Creates positive atmosphere
- Improved awareness of the brand digital signage
- widgets including RSS feeds, weather, sports can be added.

# CAFETERIA SOLUTIONS

Today Cafeteria is more than just a place to grab a bit of lunch. It's now a place for employees to connect and collaborate.

A well designed space must be flexible with right technology in place to address variety of different purposes and use cases.

**Digital Cafeteria**

Capacity Management

Custom Content Management

Occupancy Management System

Online Food Ordering

## Benefits of Cafeteria Solutions

- Create a Fun Environment
- Improve Team Cohesion
- Improve Social Interaction
- Better experience (Corporate Identity)

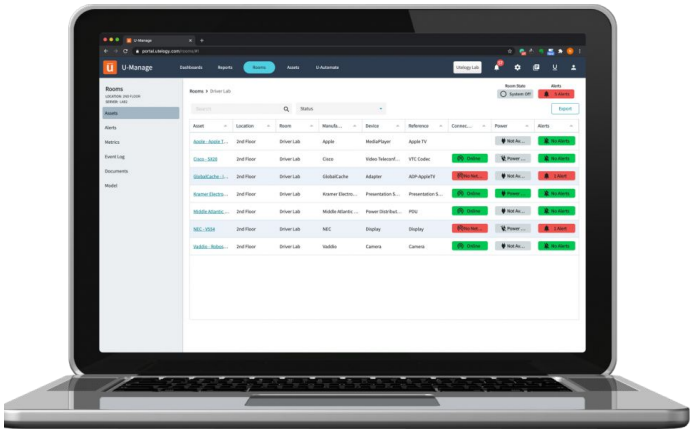
# UTELOGY

Utelogy is software based platform which aims to improve your overall user experience, reduce downtime, and save your company from costly expenses.You can Manage, monitor, control, gain insights, and automate your entire AV estate regardless of device and manufacturer with a single platform



**Features**

- Software based system
- Network based, remote deployment of rooms
- Reduced costs with remote troubleshooting
- Virtualized and hosted on network for cost efficiency

**Watch Here: Utelogy**

# REVOLUTION ACOUSTICS

Revolution Acoustics helps in creating a compelling experience with invisible audio solutions. With superior fidelity and immersive constant performance and superior coverage, It helps us to create a strong value proposition for both integrators and customers.

**Features**

- Replaces 6 conventional speakers.
- Invisible Audio Installation
- Fast, Easy Installation
- Clear Speech without any Dropouts
- Immersive High Fidelity Audio Quality

**Watch Here: Revolution Acoustics**

Oblong

## Unify Distributed Teams - Oblong

- Team engagement
- Immersive collaboration
- Completely gesture driven
- Integrates seamlessly with cisco and webex
- Infospresence for virtual teams to come together

**Watch Here: Oblong**

Hiperwall

## Distributed Command Centers - Hiperwall

- Completely Software Driven
- 100%uptime recording, streaming
- Video wall processing, scheduling, switching (all done on software)
- Effective monitoring of Mission Critical Operations

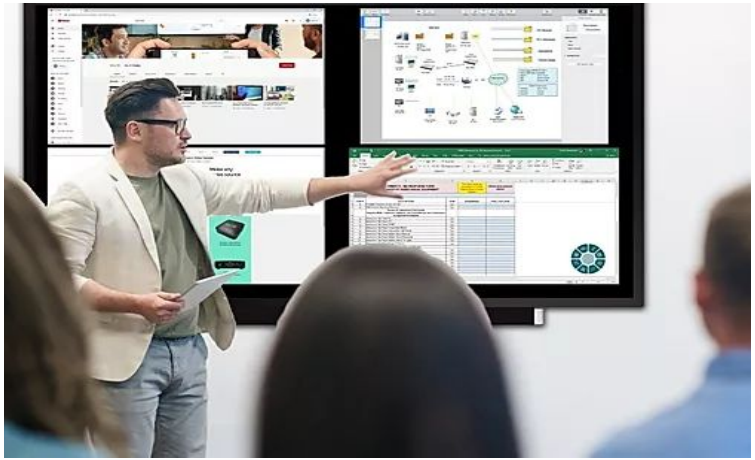
**Watch Here: Hiperwall**

NowSignage

## Digital Signage Software - NowSignage

- Cloud based Digital Signage Platform
- Allows to show any form of content on multiple screens.
- Allows to reliably and securely stream live on youtube, webpages and social media feeds.
- Gives you real time data report and insights

**Watch Here: NowSignage**

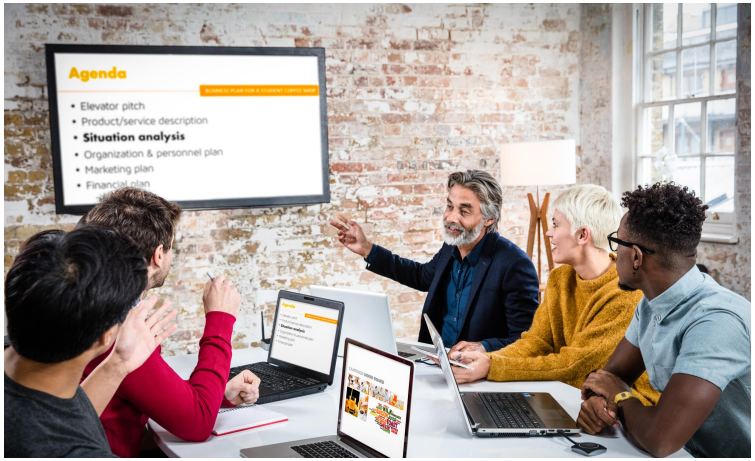


Klik Hub

## Wireless Mirroring - Klik Hub

- Wireless Presentation
- Real time annotation on screen
- Screen share on multiple devices
- Improved team engagement and collaboration on zoom calls / team calls etc.

**Watch Here: Klik Hub**



Barco Click Share

## Wireless Presentation - Click Share

- Instant Meetings
- Easy Integration
- Engaged Meetings
- Flexible Meetings
- Improved Productivity
- Wireless Presentations

**Watch Here: Click Share**

OMBEA

## Actionable Insights - OMBEA

- Collecting Data
- Actionable Insights
- Real Time Feedback
- Contact Monitoring
- Fast and Effective polling
- Interactive Presentations

**Watch Here: OMBEA**

Quantum Leap

## Smart Video Conferencing - Quantum Leap

- improved collaboration efficiency
- compatible with windows based software
- compatible with all video collaboration software
- supports dual screen display

**Watch Here: Quantum Leap**

Leap lite

## Collaboration Spaces - Leap lite

- High Productivity
- Simple deployment
- Gives you wide view
- Works well with all video conferencing softwares

**Watch Here: Leap Lite**

Kaptivo

## Digital Smart Board - Kaptivo

- Converts regular whiteboard into smart board
- Integrates with Zooms, MS teams, GoTo Meetings, Skype etc.
- Can be Standalone kaptivo live with audio video conferencing.
- Increases immersive collaboration on video calls.

**Watch Here: Kaptivo**

VitalSign

## The Body Temperature Kiosk

- Alerts about temperature change
- Better protection of staff
- Non touch infrared technology
- Allows Multiple devices monitoring

**Watch Here: Vital Sign**

CatchBox

## Actionable Insights - CatchBox

- Fun meetings and Training
- Quote and Quote throw microphone to the audience
- keeps meeting alive and interesting
- Creates a culture of discussion

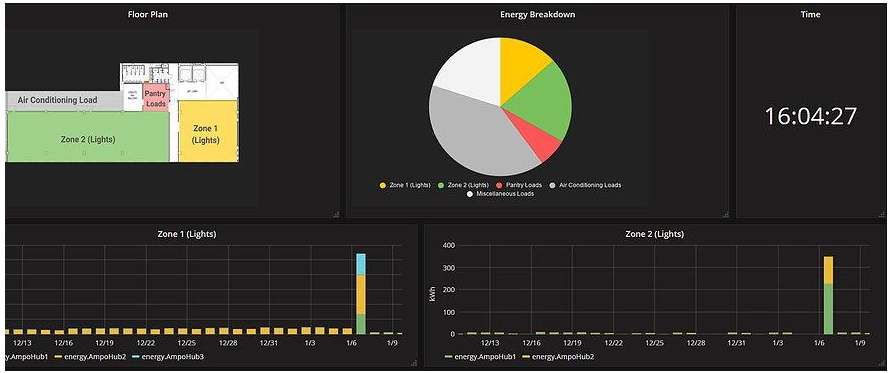
**Watch Here: CatchBox**

Epiphan Pearl Mini

## Live Streaming - Epiphan Pearl

- live Streaming / integration youtube and facebook
- Editing and post production
- Easy one touch recording

**Watch Here: Epiphan Pearl**



Energy Management

## Energy Management

- Robust install
- 100% accuracy
- Improves ROI
- Single Phase and 3 Phase
- Measures critical energy parameters

**Watch Here: Energy Management**

Classpoint

## Wireless Presentation - Classpoint

- Polling surveys
- Allows Annotation
- Increases engagement
- Integrates seamlessly with MS Powerpoint

**Watch Here: Classpoint**

# Room Scheduler

A cloud based platform for Room, Desk & Visitor Management, Smart Software Solutions at the office which fits perfectly and are easy to use. Book it in seconds and be assured of a workplace that fits your needs.

**Features**

- Manage Room Occupancy
- Saves Time and Money
- Avoid double bookings
- Easy Room Scheduling
- Clear Analytics
- Supports Integrations

**Watch Here: Room Scheduler**

# AmpoHub

AmpoHub is an ultra-compact, wireless enabled power meter and IoT gateway. It measures power consumption of key equipment and transmits the data to AmpoCloud platform. AmpoHub has already been used by retailers, factories, coworking spaces, commercial real estates, offices to monitor their energy consumption.

**Features**

- Real-time energy consumption
- verify the performance of energy conservation measures.
- Condition based alerts
- notifications when faults occur

**Watch Here: AmpoHub**

# SOUND MASKING

Make your workplace more comfortable,private, and productive with sound masking. By adding sound masking to a workplace, conversations are notably less intelligible or noticeable, and thus less distracting.

**Features**

- Reduce Noise Distractions
- Boost Productivity
- Protect Speech Privacy
- Improve Office Acoustics

WORKS COMPLETION CERTIFICATE

**Project**: Project Name

**Location: Address of Site.**

**Scope of works**: Supply & Installation of AV SYSTEMS
**Purchase Order Reference: PO Number**

This is to certify that

All works contracted to us (including all additional works given to us) are complete and are exactly as noted on the enclosed "As-built drawings".

All the works have been done true to the requirements of the tender / contract drawings, specifications and bill of quantities issued to us.

All the snags have been attended to and subsequently certified by us.

In the event of any deviation / deficiency / discrepancy / defect, we undertake to correct / rectify the same within mutually agreed upon time frame of intimation at no cost to M/s. **Client** for the D.L.P. In the event of failing to do so, we authorize M/s. **Client**, to have the same corrected / completed / rectified at our risk and cost.

Instructions for maintenance and operation are enclosed.

We undertake to provide training by trained personnel for the proper up-keep of all materials, equipment and finishes provided by us including instructions for care, use, cleaning, and maintenance and operation procedures for each item.

Enclosures:

As Built Drawings

Guarantees and Certificates as required by Contract documents.

Maintenance & Operation Manuals including all original.

**Defects Liability Period: One year from the final installation date.**

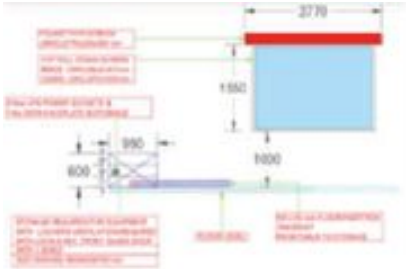
Signature & seal of Contractor Date: _____

**Handover Document**

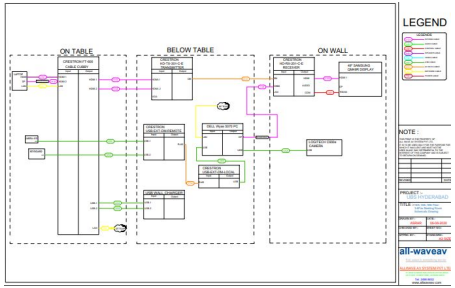
**30 Point Checklist**

# DOCUMENTATION

Each project is build to Client's specification and signed off by our team as a mark of quality and workmanship.



**AVPMS Drawing**



**Schematic Drawing**

**Complete Handover is using project documentation**

- Handover Document
